SOP: Performing an eye dissection

Posted by sat on Fri, 2014-07-04 15:04

This downloadable resource is a Standard Operating Procedure (SOP) and detailed method, including photographs, of how to perform an eye dissection.

The accompanying example risk assessment should be used as a guide only, and users should consider risks and safety measures in their local environment before proceeding.

SOP updated August 2016

Australian Curriculum v9 Codes: AC9S8U02 (Year 8), AC9S9U01 (Year 9)
