## Pushes and Pulls

Posted by [sat](#) on Tue, 2016-08-09 22:15

This online teaching resource helps teach young students about forces.

The resource discusses students' understandings of forces and motion (i.e., pushes and pulls) and also details learning tasks that will engage students when investigating these concepts.

There are also direct references to academic research on science education for younger primary students.

New Australian Curriculum Code: AC9S1U03 (Year 1)
