Vision activities

Posted by sat on Wed, 2014-06-18 11:57

This downloadable resource details activities that explore the nature of the human eye.

The resource is an MS Word document that details hands-on experiments that: determine the near point of both eyes, how our eyes use binocular vision, which is a person's dominant eye, judging distances, and finding the blind spot.

Australian Curriculum v9 Codes: AC9S5U03 (Year 5)
