Distance to the moon

Posted by [sat](#) on Wed, 2014-06-18 12:18

This resource is about calculating the distance to the moon.

This downloadable document details a student practical activity that uses the concept of ratios to determine an experimental value for the distance to the moon.

This activity also introduces the idea of sources of experimental error.

Australian Curriculum v9 Codes: AC9S10U03 (Year 10)
