## Amazing Space Marshmallows

Posted by [sat](#) on Sun, 2014-06-22 15:57

This video shows the effect of a vacuum on marshmallows.

The video could be used to reinforce the fact that space is a vacuum and explain why astronauts need to wear spacesuits.

For older students, it could also be used as a demonstration of Boyle's law, which relates pressure and volume for gases.

Australian Curriculum v9 Codes: AC9S2U01 (Year 2), AC9S6U02 (Year 6), AC9S7U03 (Year 7)
