Nutrient impact experiment

Posted by [Anonymous](#) on Sun, 2014-06-22 16:52

This online resource looks at the links between the land and marine environments.

The resource gives details on a student activity where the students create a model the environment (or the teacher gives a demonstration) and students can examine the effects of nutrient run-off and leaching.

Students also examine fair testing procedures.

Australian Curriculum v9 Codes: AC9S7U02
