Earth and Space Science - Year 9 W.A.S.P.

Posted by [sat](#) on Tue, 2014-07-01 00:53

This online resource supports the teaching of Year 9 Earth and space science.

The resource is a teaching package that provides a range of hands-on student activities and teacher support materials to help with the teaching of the Year 9 Earth and Physical Sciences components of the Australian Curriculum.

The activities are organised into four topics:

1. Continental Drift and Plate Tectonic Theory
2. Relating Earthquakes and Volcanic Activity to Plate Boundaries
3. Great Iron Catastrophe (GIC) and Planetary Differentiation
4. Can Humans Move the Earth?

The teaching package includes teacher support materials for the above topics.

Australian Curriculum v9 Codes: AC9S8U03 (Year 8)
