Separating Mixtures: Chromatography

Posted by [sat](#) on Thu, 2014-07-17 13:38

This online resource explores the principles of chromatography.

The resource is a student hands-on activity that demonstrates that inks are made up of different compounds that can be seen using a simple form of chromatography.

Australian Curriculum v9 Codes: AC9S7U05 (Year 7), AC9S7U06 (Year 7)
