The effect of temperature on reaction rate

Posted by [sat](#) on Thu, 2014-07-24 00:41

This online resource details an investigation into reaction rates.

The resource is a web page which details an experiment where the effect of temperature on the rate of reaction between sodium thiosulfate and hydrochloric acid is investigated.

The web page contains a lesson plan along with teaching tips and a student worksheet.

Australian Curriculum v9 Codes: AC9S10U07 (Year 10)
