Slinky drop video

Posted by [ctilley2](#) on Mon, 2014-08-11 13:31

This online resource is a short video about what happens to the top and bottom of a stretched slinky spring as it falls. The clip is taken from the ABC television show *Catalyst*.

The video shows interviews with various people on the street who try to predict what will happen when a stretched slinky is dropped. Slow motion footage reveals the answer, which might amaze you ... it did amaze them!
