Activities for radiation risks and uses

Posted by [sat](#) on Sun, 2014-08-31 16:01

This online resource deals with teaching about radiation safely in schools.

The resource has 27 sections on many aspects of radiation physics and its risks including: the different types of radiation, the risks they pose, manmade radiation and radioactive decay.

Australian Curriculum v9 Codes: AC9S9U06 (Year 9)
