The Chemistry of Haircare

Posted by [Anonymous](#) on Sun, 2014-08-31 16:08

This online resource looks at acid-base reactions.

The resource provides a range of activities to do with some key chemical concepts relating to hair care, shampoos and conditioners.

The activities place ideas about surfactants, acids, and bases in an everyday context, using activities ranging from practical experiments to role play and a class survey.

Australian Curriculum v9 Codes: AC9S8U07 (Year 8), AC9S10U07 (Year 10)
