The Environment and Living Things

Posted by [Anonymous](#) on Mon, 2014-09-01 23:18

This online resource looks at the interdependence of the environment and living things.

The resource provides support and ideas for teaching about the flow of energy within an ecosystem and the interdependence of living things and the environment they live in.

The web page also provides research about alternative student conceptions so that students can be guided to develop an understanding of the scientifically held view.

Australian Curriculum v9 Codes: AC9S3U01 (Year 3), AC9S4U01 (Year 4), AC9S5U01 (Year 5), AC9S6U01 (Year 6)
