Night and Day Rotation Animation

Posted by [sat](#) on Tue, 2014-09-02 22:06

This animation demonstrates why we have night and day.

An accompanying quiz strategically asks questions that gives teachers the opportunity to dig deeper into student thinking with questions such as "why do you think that?" and "If that were true, what would you expect to happen if?".

Students can then use the interactive to check their ideas.

New Australian Curriculum Codes: AC9S2U01 (Year 2)
