From little things big things grow - Science by Doing

Posted by [ctilley2](#) on Fri, 2014-11-21 10:18

This online resource is an inquiry-based learning sequence that cover characteristics of life, cells, microscopes, cell organelles, tissues, organs and body systems.

The resource includes hands-on activities, digital interactives, animations and videos.

Students learn to table and graph results and produce scientific drawings.

They also undertake dissections of squid and celery plants.

A teacher guide, activity sheets and assessment are also available.
