Doing Science Investigations: Student Guide - Science by Doing

Posted by [sat](#) on Fri, 2014-11-21 10:48

This online resource helps develop skills for science investigations.

The resource is a general unit of work suitable for all years of high school that can be used to help students develop the skills necessary to complete their own open-ended science investigations.

These skills are directly related to the Science Inquiry Skills found in the Australian Curriculum: Science and supports the CSIRO CREativity in Science and Technology (CREST) program.

Australian Curriculum v9 Codes: AC9S7U04 (Year 7)
