Does Weight Matter?

Posted by [sat](#) on Mon, 2015-01-19 17:44

This online resource examines the effect of weight on friction.

The resource gives instructions for a hands-on activity where students can determine if weight affects friction when objects are slid across flat surfaces.

The instructions also give hints on how to lead students in the design and the conducting of the experiments.

Australian Curriculum v9 Codes: AC9S7U04 (Year 7)
