Erosion in Rivers

Posted by [sat](#) on Tue, 2015-01-20 20:29

The hands-on activity allows students to investigate the effects of water erosion along a simulated riverbank.

There is a full material list, activity guide, and pre- and post- activity quizzes.

The downloadable resources also include a step-by-step teacher guide for constructing buildings using a 3D printer or lego blocks. The buildings are to be placed along the banks of the simulated river.

New Australian Curriculum 9 Codes: AC9S5U02 (Year 5)
