Water for life - unit of work

Posted by [sat](#) on Tue, 2015-03-31 15:21

This online resource investigates the importance of water to living things.

The inquiry-based resource details activities and tasks that are designed to engage Year 2 students when they are learning about the importance of water to living things.

It provides question prompts and ideas on conducting investigations with students. The unit also advises on ways for students to draw conclusions and communicate what they have discovered.

It also provides a range of teaching resources and stories that could be used when exploring this topic.
