Portable bunsen burners

Posted by Anonymous on Tue, 2015-08-04 15:34

Portable Bunsen burners: In August 2013, a Qld Dept Education Health and Safety Consultant advised us that the Australian Gas Association (AGA) and Qld Petroleum and Gas Inspectorate have decided that the puncture-type C206 disposable gas canisters that fuel clip-on Bunsen burner attachments are not suitable for use in schools indoors or outdoors.

I cannot find any documentation from any of these organisations that detail this decision. Could you advise that portable Bunsens should not be used?
