Use of iron III nitrate and zinc nitrate

Posted by Anonymous on Thu, 2015-09-24 10:14

Use of iron III nitrate and zinc nitrate: Is it still okay to use iron III nitrate and zinc nitrate, as they are not listed on the Recommended List of Chemicals for Schools. We currently make up 0.5 M solutions of each to use in Year 11 & 12 Chemistry to look at half cells and the electrochemical series. Should we continue to use them and/or are there recommended alternatives?
