Physical Science Teacher's Guide

Posted by [sat](#) on Thu, 2015-09-24 12:01

This downloadable resource helps teach younger students about the physical world.

The resource outlines a number of practical activities and challenges designed to support and engage Foundation to Year 2 students when exploring the physical world.

This inquiry-based teaching resource guide provides advice and ideas on how to engage and challenge the thinking of students.

It also outlines a range of practical tasks on dealing with motion, magnetism, sound, light and simple machines.

New Australian Curriculum Codes: AC9SFU02 (Foundation), AC9S1U03 (Year 1), AC9S2U02 (Year 2), AC9S4U03 (Year 4)
