What's the Matter? Primary Connections

Posted by [Anonymous](#) on Mon, 2015-10-26 23:20

This unit of work introduces students to the different states of matter.

The resource details ways of supporting and engaging Year 5 students when learning about the states of matter and the properties of solids, liquids and gases.

This inquiry-based teaching unit provides advice and outlines tasks and activities that are intended to engage students when investigating the properties of solids, liquids and gases.

It includes 7 lesson plans, teacher background information and student worksheets that support its implementation.

Australian Curriculum v9 Codes: AC9S5U04 (Year 5)
