Blood Typing - Use of Animal Blood

Posted by Anonymous on Tue, 2015-12-01 16:19

Blood Typing—Use of Animal Blood: Hi, I know that if we use human blood for blood typing it has to be screened. A teacher attended a PD session and they used blood from the bottom of a bag of meat that was bought from the shops for human consumption. I'd like to know if it is OK to use this blood in a school laboratory?
