Water on Earth - A Primary School Water Resource

Posted by [sat](#) on Fri, 2016-05-06 02:04

This online resource explores the concept of water as a resource.

The resource is for teachers of primary-aged students and details inquiry-based investigations and practical activities that support and engage students when learning about water.

It also differentiates activities into those considered suitable for Early Years students (F–2) and older primary students (Years 3–6).

Background information for teachers is provided and includes the following topics: 'Water for people', 'Safe water', 'Water for living things' and 'Origins of water'.

New Australian Curriculum Codes: AC9S1U01 (Year 1), AC9S1U02 (Year 1), AC9S3U04 (Year 3), AC9S4U02 (Year 4), AC9S5U04 (Year 5), AC9S6U01 (Year 6)
