## **Bromine Water**

Posted by Anonymous on Thu, 2016-05-19 11:11

Bromine Water: I have been asked to make up bromine water for testing its reaction with hydrocarbons. I know that this is very toxic and requires an S7 Poisons Permit. Would the alternative "bromine water" made by adding a few drops of commercial bleach to a 0.5 M solution of potassium bromide still work for this experiment?
