Quick links for Connected Learning Experiences

Posted by sat on Thu, 2020-04-02 14:20

Links to the Science ASSIST Connected Learning Experiences (CLEs).

This document provides links to the Connected Learning Experiences (CLEs) that have been developed by Science ASSIST. It contains a table showing the relevant year level and the Australian Curriculum: Science strand.

Connected Learning Experiences (CLEs) are curriculum resources designed to support teachers implement learning experiences linked to the Australian Curriculum: Science that embody an inquiry approach to scientific investigations of natural phenomena.

CLEs are comprehensive resources providing teacher background information, lesson plans, digital resources such as video clips and interactive simulations, student workbooks and support for assessment of student learning outcomes.
