What Drives Plate Tectonics Worksheet

Posted by [sat](#) on Wed, 2019-07-24 15:41

This downloadable resource looks at verifying the movement of tectonic plates.

The resources include a worksheet whereby students use various online resources to determine the speed of movement of tectonic plates across the surface of the Earth (a separate copy with example answers is also provided). A copy of the original article on which these worksheets are based is also provided to act as teacher notes for the activity.
