Habits of the Heart and Lungs

Posted by [sat](#) on Sat, 2014-03-15 15:14

This online resource deals with the circulatory and respiratory systems.

The resource is a series of lesson plans that teachers can use to demonstrate the key principles of operation of the circulatory and respiratory system.

There are also videos of operations that a teacher can choose to use. This is good for teacher ideas or for showing the videos to students.

Australian Curriculum v9 Codes: AC9S8U01 (Year 8), AC9S8U02 (Year 8)
