Posted by Anonymous on Tue, 2021-11-09 17:59

WLNA and WLDA Agar plates: One of our Science teachers has asked for these specific agar plates that are used for culturing microorganisms associated with brewing and fermentation. He is going to use these agars to test cider batches. WLNA Agar is used to culture yeasts and WLDA Agar to culture bacteria. Are WLNA and WLDA Agar allowed to be used in schools?
