## Balancing Chemical Equations

Posted by [EmilyAslin](#) on Mon, 2022-10-24 20:54

This simulation involves students balancing chemical equations.

Produced by PhET, students first learn the basics of balancing. They then move on to a game.

It is a fantastically visual resource, with the options to show balancing scales and/or graphs alongside the molecules and symbols.

Australian Curriculum v9 Codes: AC9S9U07 (Year 9)
