Build a roller coaster

Posted by [sat](#) on Sun, 2014-03-16 14:00

This online resource is a student practical activity that focuses on demonstrating the transference of energy through building a model roller coaster.

The resource includes instructions on how to create a roller coaster using foam tubing cut in half and a marble.

The resource also includes definitions of key terms as well as where to go to learn more about roller coasters.
