Find the elements

Posted by [sat](#) on Mon, 2014-04-07 09:47

This online resource helps students determine if materials are compounds or elements.

The resource is a Scootle interactive where students 'deconstruct' different objects to determine if they are compounds or elements.

This is a short activity that would be useful in a flipped classroom or as part of a series of activities in a web quest.

Australian Curriculum v9 Codes: AC9S8U06 (Year 8)
