Hydrogen and its properties

Posted by [sat](#) on Tue, 2014-04-08 14:51

This online resource demonstrates some of the properties of hydrogen.

The resource is a video (5:19 minutes) that gives a demonstration of some of the properties of hydrogen, and in particular, its flammability.

It also introduces the concept of using hydrogen as a fuel, with the only by-products of its combustion being heat and water.

This video could also be used to increase students' general knowledge of gases.
