Pushing and pulling across a bridge

Posted by [sat](#) on Wed, 2014-04-09 10:22

This online resource introduces Foundation Year students to forces.

The resource is a Scootle resource in the form of an interactive challenge which requires students to make decisions about the force needed to move a range of animals across a bridge.

It explores pushes and pulls as forces that can move an object that is at rest.

New Australian Curriculum Code: AC9S1U03 (Year 1)
