Up, Down and All Around - Primary Connections

Posted by [sat](#) on Wed, 2014-04-09 21:52

This unit of work supports younger students learning about change.

The resource is a teaching unit targeted at Year 1s that supports investigating and learning about the changes that occur to natural, managed and built environments. Students have the opportunity to investigate the daily, weekly and seasonal changes in their local environment through outdoor observations and photographic records. They observe sky and landscape over several timescales, and apply their new learning by investigating how human activities affect features of the landscape.

New Australian Curriculum Codes: AC9S1U02 (Year 1), AC9S2U03 (Year 2)
