Mapping change over time

Posted by [sat](#) on Mon, 2014-05-19 20:38

This online resource looks at the geologic timeline.

The resource details an activity where a class builds a geologic timeline on a wall, adding one or two pieces of information each week.

Organisms are placed on the timeline, with a description of the evidence for its form and its position on the timeline.

It is suggested that this activity could be done at the start or end of a lesson each week during the topic.

Australian Curriculum v9 Codes: AC9S10U02 (Year 10)
