Risk Assessment for School Science Activities

| Name and nature of activity | Preparing sodium hydroxide solutions | | | |
|---|---|--|---|-----------------------|
| Location and date of activity | | | | |
| Name of teacher/technician | Science ASSIST example risk assessment | | | |
| Activity type | ☑Technician procedure ☐Teacher demonstration ☐Student activity – Student year group | | | |
| Physics and general equipment | Type of hazard Controls and other measures | | | |
| Magnetic stirrer (optional) Glassware | ☐ Radiation ionising laser ☐ Electrical Thermal ☐ Projectiles ☐ Sharps ☐ Other — | | ☐ Relevant signage ☐ Perspex safety shield ☐ Sharps container ☑ Glassware free from ☐ Safety glasses ☐ Thermally insulated g ☐ Other — | cracks or chips |
| Chemicals used and produced | Type of hazard | | Controls and other measures | |
| Sodium hydroxide, solid Sodium hydroxide, dilute solution | Explosive Flammable Oxidising Gases under pressure Corrosive | Acute toxicity Health hazards Chronic health hazards Environmental Other – | □ Limit quantity/concen □ Perspex safety shield □ Ventilation: natural/ex □ Fume cupboard □ Safety glasses □ Laboratory coat/apro □ Gloves: latex/nitrile/n □ Safety shower □ Other – | l khaust n |
| Biological/geological materials used | Type of hazard | | Controls and other measures | |
| NA | □ Biohazard □ Dust/aerosols □ Sharps □ Manual handling □ Other – | | ☐ Steriliser ☐ Disinfectant ☐ Sharps container ☐ Dust mask ☐ Safety glasses ☐ Gloves ☐ Other — | |
| Waste produced | Waste disposal procedure | | | |
| Residues of sodium hydroxide solution on glassware | ☐ Pre-treatment of waste — ☐ Sink with water — ☐ Regular waste — ☐ Licenced hazardous waste company — ☐ Other — | | | |
| Standard Operating Procedures | | | | |
| I have read the relevant Standard Operating Procedure. I am experienced/trained in using all the equipment listed. All chemicals used and produced are approved for use. I have read the current SDSs for all hazardous chemicals used and produced. I am aware of safety guidelines for using all chemicals, materials and equipment. I will follow local guidelines for waste disposal (water authority, local council, EPA). I am aware of first aid procedures if required. | | | | |
| Other comments: | | | | |
| Conclusion: ☐ Risks not significant now and not likely to increase. ☐ Risks significant but effectively controlled at the moment. ☐ Risks significant and not adequately controlled at the moment. ☐ Uncertain about risks; more detailed assessment required. | | | | |
| Assessment carried out by: Science ASSIST | Signature: | | | Date: May 2016 |
| Assessment approved by: | Signature: | | | Date: |
| Next assessment due: | | | | |

This Risk Assessment assumes that the activity will be conducted in a science teaching area with the following facilities: electricity, running water, emergency shut-offs for electricity, gas if applicable, and water, regular testing and tagging of portable appliances; emergency contingencies such as evacuation/emergency plans, appropriate fire extinguishers, spill kits, hand washing facilities, eyewash/safety shower and first aid supplies. It is also assumed that all the necessary licencing requirements and approvals are obtained prior to the activity.
